

LUIS DE JAVIER

HE/HIM

After gaining recognition for creating works that capture the spirit of the underground queer rave scene, Spanish designer Luis De Javier is leveling up.

From dressing celebrities like Julia Fox, Lourdes León, and Kylie Jenner, among others, to collaborating with Riccardo Tisci, De Javier is expanding his practice, reconnecting with his Spanish roots, and continuously honoring the queer community that has been his constant source of inspiration.

The fashion prodigy, audacious and exuberant, is growing without losing an ounce of his nonchalant attitude.
